

Orban Veterinary Services

January 22, 2017;

Attn: Superior Equine Sires Canadian Clientele,

Congratulations on the purchase of frozen semen from Superior Equine Sires! I wish the best of luck to everyone this spring season of 2017! My name is Dr. Tammy Orban and I will be the veterinarian responsible for importing your semen across the American border into Canada safely. There will be two shipments: one in early-March and the second in mid-April, 2017.

At this time I do not have any dry shippers available for rental. I will require you to have your veterinarian send me a dry shipper, I will return it back with your doses of SES semen inside. The dry shipper can be sent via FedEx, Purolator or DHL/Loomis, whichever your veterinarian prefers. I would ask that they email me at orbanvet@gmail.com on the day they send the shipper to alert me of its arrival. I will phone them with a tracking number on the day that I send it back as well. My shipping address is:

Orban Veterinary Services

C/O Go West Wireless - 5004 50th Ave

Drayton Valley, AB T7A 1S4 Canada

Phone: 780-898-4565

Fees: There will be a handling fee of \$45 per dose of semen. The customs and brokerage importation fees will be evenly split up between the doses of semen that arrive (this could range anywhere from \$20-110 per shipment). I will not be charging you for courier fees, you will have to ask your veterinarian about those costs.

The best way to get a hold of me is email or texting me at 780-898-4565. Please let me know if you have any other questions or concerns.

Sincerely,
