GENERAL TERMS FOR DISTRIBUTION OF FROZEN SEMEN

1. Frozen semen distributed by Lövsta Stuteri or partner may be used by the Breeder for traditional insemination. Frozen semen may also be used for Embryo transfer (ET) or Intracytoplasmic sperm injection (ICSI).
2. The doses of frozen semen are to be sold by Lövsta Stuteri or partner to the Breeder, one by one, for one stipulated mare or several mares from the Breeder.
3. The Breeder acknowledges and understands that he or she will be charged per gestation if doses are split. In case the semen is to be used as part of an ET-procedure or ICSI, the fee of the sold dose

will be charged based on the number of embryos flushed (for ET) or inseminated (for ICSI). The advance will be charged when the transplantation turns out positive.

4. The Breeder shall provide Lövsta Stuteri with a survey of number of flushes, inseminations and information regarding number of successfully implanted embryos per mare. The survey shall be drawn up and signed by a veterinarian or an embryo transplantation centre. If the transplantation of the embryo or the insemination was unsuccessful, such a survey will count as a non-gestation.
5. Semen may not be used on any other mare than it was ordered for and intended for. The Breeder is not entitled to resell any dose of semen. The Breeder accepts, and understands, that semen sold by Lövsta Stuteri does not have any guarantees for pregnancy.
6. In case the Breeder violates these terms and conditions, in particular the obligations in sections 4-5, he or she is liable to pay a penalty fee corresponding to the damage Lövsta Stuteri suffered as a result of the breach of contract, however at least EUR 2 500. The penalty fee - and any other unpaid fee - shall be paid immediately upon request by Lövsta Stuteri.
7. All semen supplied is subject to the terms offered by Lövsta Stuteri, in addition to these terms and conditions, which can be found at <https://www.lovstastuteri.com/en/general-conditions/>
